Information om nye maut-takster pr. 1. december 2023

Kære kunde.

Under henvisning til vores skrivelse i september angående forventede maut-ændringer i Tyskland, vedtog det tyske parlament, Forbundsdagen, fredag d. 20. oktober forslag om at hæve maut-satserne.

Satsernes stigning er markante da man i mauten indregner konsekvenserne af et EU-direktiv om tillæg for CO₂-udledning.

De nye maut-satser gælder allerede fra d. 1. december 2023 og beregnes på alle eksport og importture med opstart fra og med samme dato.

Konsekvenserne af denne maut-stigning er beregnet til 83,16% og LGT forhøjer derfor alle maut-satser med denne procentvise regulering.

De nye satser fremgår af kommende aftaleopdateringer for 2024.

Kunder med fragtrater hvor den nuværende maut er indkalkuleret, får efterfølgende tilsendt information om nye maut-satser der beregnes som særskilt tillæg.

På øvrige trafikker i Europa, hvor der betales vejsskat, forventes disse ligeledes at blive reguleret pr. årsskiftet. Dog foreligger der i skrivende stund ingen konkret information vedrørende omfanget af disse stigninger.

Med venlig hilsen

Horsens, the 7th of November 2023

Information on new German toll rates per 1st of December 2023

Dear Customer.

Referring to our letter in September regarding expected maut changes in Germany, the German parliament, the Bundestag, on Friday the 20th of October passed proposals to raise the toll rates (maut).

The increase in rates is significant as the toll considers the consequences of an EU directive on surcharges for CO₂ emissions.

The new maut rates already apply from the 1st of December 2023 and are calculated on all exports and imports shipments starting from the same date.

The consequences of the increase in maut are calculated at 83.16% and LGT therefore increases all maut rates with this percentage adjustment.

The new maut rates appear in upcoming agreement updates for 2024.

Customers with freight rates where the current maut is included will subsequently be send information about new maut rates which are separately invoiced as surcharge.

On other traffics in Europe, where road tax is paid, these are also expected to be regulated per 1st of January 2024. However, at the time of writing there is no concrete information regarding the extent of these increases.

Yours sincerely

LGT Logistics A/S
