COVID-19 update from LGT

**Dear customer.**

At LGT we are closely monitoring the development around Covid-19. We follow all instructions and recommendations of the involved authorities, and we have already last week introduces specific restrictions mainly for access to our offices and warehouse.

Until further we are able to keep all routes/lines open. However in the Southern part of Europe, we might face longer delivery times for your consignments. As well as import consignments from Europe to the Nordics can be effected by delays.

We have suspend all KPI reporting concerning delivery performance until the situation again can be considered normal.

Kind regards

Poul Erik Dahl
