COVID-19 update from LGT

Dear customer.

Easter holidays are closing in, and at LGT we are closely monitoring the situation through out Europe, in order to secure most possible deliveries and collections – and at the same time secure the safety of our employees concerning the Covid-19 crisis.

We give you the following update concerning status in our traffics up till Easter:

Denmark – domestic distributions and collections

Activities continues up till Easter.

Norway, Sweden and Finland

Activities continues up till Easter. Because of the short week (week 15), there will be a geographical limited distribution coverage. In Norway we will try and deliver zones 1+2, and all remote areas in all Nordics will be difficult to reach.

We ask you to keep close contact to our staff in matters of specific consignments.

Germany, Austria, Switzerland, Holland, Belgium and Luxembourg

Activities continues up till Easter. Because of the short week (week 15), there will be a geographical limited distribution coverage. All planning of routes depends on the consignees having an open warehouse and confirms accept of deliveries. We ask you to keep close contact to our staff in matters of specific consignments.

UK / Ireland

Since our latest letter of information dated the 26th of March, UK and Ireland has formally closed down all “unnecessary businesses”. We therefore do NOT plan any departures to Ireland until after Easter. We are however planning to deliver to clients in the southern/central area of England.

Again this depends on the consignees having an open warehouse and confirms accept of deliveries. We ask you to keep close contact to our staff in matters of specific consignments.

France, Italy, Spain and Portugal

Until further no activities to and from these countries.

LGTs administration

Our team in duty will still be according to our letter of information dated the 30th of March. As we have send home a larger number of staff, due to the Danish Law of salary compensation, we kindly ask for your understanding of longer respond times.

And again we have to underline. That you as order giver and payer of freight costs do carry all risk and costs involved, if shipper og consignee is preventing us from performing our services.

Please be careful out there – Happy Easter holidays – and STAY SAFE.

Kind regards

Poul Erik Dahl
